JOB TITLE: Lead Engineer-Citation V

COMPANY: Coulson Aviation (Australia) Pty Ltd.

REPORTS TO: Head of Aircraft Airworthiness and Maintenance Control

ABOUT THE COMPANY:

Global Leaders in Aerial Firefighting Coulson Aviation (Australia) Pty Ltd. is a privately owned family company based in Port Alberni, British Columbia, Canada. The company has over 160,000 safe flight hours and has been in the aviation business for over 36 years; operating a diverse fleet of both fixed wing and rotary wing aircraft. The company's operations have included helicopter logging, forest fire suppression, power-line construction, airliner passenger transport and many other industrial heavy lift operations.

The fleet is geared for mobility and self-sufficiency and is supported by mobile fuel tankers and aircraft maintenance service vehicles staffed with qualified engineers. These aviation services are provided to clients on a "turnkey" basis. Coulson Aviation (USA) Inc. was founded in 1990 as a wholly owned subsidiary of Coulson Aircrane Ltd. From 1990 to 1993 Coulson Aviation (USA) provided the personnel for extensive heli-logging operations in Alaska. In the succeeding years, Coulson Aviation (USA) purchased its first C-130 Hercules that currently holds contracts within the United States and Australia. A second C-130 Hercules was acquired for the program in 2015 to accommodate the growing need for large air tankers. Coulson Aviation (Australia) PTY Ltd was created in 2010 to support Coulson Aviation's long-term operations and commitment to its Australian customers.

It was setup as a wholly owned subsidiary of Coulson Aircrane Ltd. to provide aircraft personnel for Coulson's rotary and fixed wing aircraft operating under contract in Australia for Firefighting and offshore oil applications. Coulson Aircrane Ltd. (Port Alberni, BC) operate a Business and Quality Management System certified to ISO 9001:2015 + AS9100D for the manufacturing of parts and assemblies, including post-delivery support.
